

**Business and Residential Notice**  
**Chemical Treatment**  
**For**  
**Eurasian watermilfoil**

Distribution Date: August 1, 2014

Liberty Lake will be treated one (1) to two (2) days with an aquatic herbicide to control Eurasian watermilfoil on the week(s) of:

- August 11 through August 15, 2013 for the first treatment with a target date of August 11; and/or
- August 18 through August 22, 2013 for any necessary follow-up treatments or weather delay.

Product planned for use: Renovate MAX G

Active ingredient(s): Triclopyr & 2,4-D

Location of Treatment Area(s): Map provided (see reverse side); 11 total acres to be treated.

Liberty Lake Sewer and Water District staff will post signs in treated and potentially affected areas up to 48 hours prior to treatment. The signs will describe any water use restrictions or advisories.

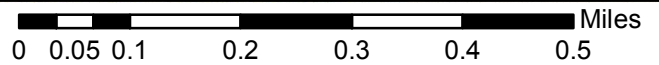

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact the applicator, LLSWD – Jeremy Jenkins at (509) 220-3419 or through the website [www.libertylake.org](http://www.libertylake.org) to arrange an alternate water supply.

If you would like to request additional notification prior to treatment, or have further questions, please contact:

**Jeremy Jenkins, Lake Protection Manager, Liberty Lake Sewer and Water District, at (509) 220-3419, [jjenkins@libertylake.org](mailto:jjenkins@libertylake.org), or the District's main office (509) 922-5443.**

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology, Permit No.: WAG994095
