

## Business and Residential Notice

In Treatment Area In 

¼ Mile Notification Area 

*Distribution Date: 8/22/22*

**Liberty Lake will be treated with ProcellaCOR Aquatic Herbicide on or about September 6th— September 16th, 2022, weather permitting. Our target week for treatment is the week of September 6th. Only one treatment is planned. Treatment(s) will not take place on weekends or Holidays.**

**Product(s) planned for use: ProcellaCOR EC**

**Active ingredient(s):** Florpyrauxifen-Benzyl

**Plants/Algae targeted: Nuisance and Invasive aquatic plant;** Eurasian watermilfoil

**Location of treatment(s):** Liberty Lake

**The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories. Please refer to the following website for an interactive map of the treatment zones: <https://arcg.is/oDGCTy>**

**If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact *AquaTechnex* at (509) 960-8133 to arrange an alternate water supply.**

**There are NO restrictions for swimming, fishing, potable drinking water immediately following treatment. It is safe to do these activities immediately following treatment.**

**If you want additional notification prior to treatment, or have further questions, please contact AquaTechnex using the information above.**

**This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994095**
