In Treatment Area In

¼ Mile Notification Area

Distribution Date: 7/26/23

Liberty Lake will be treated with *ProcellaCOR Aquatic Herbicide* on or about August 7th— September 15th, 2023, weather permitting. Only one treatment is planned. Treatment(s) will not take place on week-ends or Holidays.

Product(s) planned for use: ProcellaCOR EC

Active ingredient(s): Florpyrauxifen-Benzyl

Plants/Algae targeted: Nuisance and Invasive aquatic plant; Eurasian watermilfoil

Location of treatment(s): Liberty Lake

The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact *AquaTechnex* at (509) 960-8133 to arrange an alternate water supply.

There are NO restrictions for swimming, fishing, potable drinking water immediately following treatment. It is safe to do these activities immediately following treatment.

If you want additional notification prior to treatment, or have further questions, please contact *AquaTechnex* using the information above.

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994095
