

## Business and Residential Notice

In Treatment Area ☒ In ¼ Mile Notification Area ☒

**Distribution Date:** *August 17, 2021*

**Liberty Lake will be treated with aquatic herbicides on or between**

- Tuesday, August 31 – Friday, September 3, 2021 (1 day)\*

\*8/31 is the planned date, the subsequent days are contingencies.

**Product(s) planned for use:** *Aquathol, Hydrothol, Diquat, Flumioxazin*

**Active ingredient(s):** *Dipotassium salt of endothall, Mono salt of endothall, Diquat dibromide, Flumioxazin*

**Plants/Algae targeted:** *Eurasian watermilfoil & Curly-Leaf Pondweed – both are invasive to Liberty Lake and can outcompete the native plant species found here.*

**Location of treatment(s):** *Map provided (see attached); 34 acres to be treated*

**The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories.**

**If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact Jeremy Jenkins, LLSWD at (509) 220-3419 or [jjenkins@libertylake.org](mailto:jjenkins@libertylake.org) to arrange an alternate water supply.**

**If you want additional notification prior to treatment, or have further questions, please contact me using the information above. Jeremy Jenkins, Environmental Manager, Liberty Lake Sewer and Water District, at (509) 220-3419, [jjenkins@libertylake.org](mailto:jjenkins@libertylake.org), or the District's main office (509) 922-5443. Lakeland Restoration Services, LLC at (877) 273-6674, [lakeland@lakelandrs.com](mailto:lakeland@lakelandrs.com) or [www.lakelandrs.com](http://www.lakelandrs.com)**

**This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994095**
